

MBTI® Professional Training 2010

Trainers: Ann O'Sullivan and A N Other

The MBTI® is the world's most widely used personality questionnaire, based on the theory of Carl Gustav Jung with over 50 years' research and development.

These workshops equip the participant with the necessary skills and qualifications to use the instrument in various professions.

MBTI® **Step 1** identifies an individual's type (made up of four basic preferences) and provides a common language around how we interact with the world and each other.

MBTI® **Step 2** enables exploration of the unique way in which an individual expresses their preferences by providing analyses of the five facets of each Step 1 dimension.

Ann O'Sullivan is a registered practitioner of the MBTI® and a member of the Training Faculty of Oxford Psychologists' Press (OPP).
